

# The Lausanne Cancer Summer Lectures

September 5 - 7, 2012

Organizer: Gian-Paolo Dotto  
PhD school "Cancer and Immunology", UNIL

## CONFERENCE ROOM B301, CIIL, EPALINGES

Melody Swartz, EPFL, Lausanne, Switzerland

(Sept 5th, 1-3 PM )

**"The sentinel lymph node in tumor immunomodulation"**

Carlo Croce, Ohio State University, USA

(Sept 5th, 3-5 PM )

**"Causes and consequences of microRNA dysregulation in cancer"**

Luis Parada, UT Southwestern, USA

(Sept 5th, 5-7 PM )

**"Neurofibromatosis: the genetic disease, tumor models and beyond"**

Meenhard Herlyn, The Wistar Institute, USA

(Sept 6th, 9-11 AM )

**"Understanding the biology of melanocytes and melanoma cells to develop new strategies for therapy"**

Jon Aster, Harvard University, USA

(Sept 6th, 11 AM-1 PM)

**"The Double-Edged Sword of Notch Signaling in Cancer"**

Jeff Rosen, Baylor College of Medicine, USA

(Sept 6th, 2-4 PM)

**"Tracking and Targeting Breast Cancer Stem Cells"**

Michael Detmar, ETH, Zürich, Switzerland

(Sept 6th, 4-6 PM)

**"Interactions between tumor cells and lymphatic vessels in cancer progression: New diagnostic, prognostic and therapeutic tools"**

Erwin Epstein, Children's Hospital Oakland Research, USA

(Sept 7th, 9-11 AM)

**"How my Pop-up Toaster Dream came true"**

Michael Hall, University of Basel, Switzerland

(Sept 7th, 11 AM-1 PM)

**"TOR signaling in growth and metabolism"**

Yossi Yarden, Weizmann Institute of Science, Israel

(Sept 7th, 2-4 PM)

**"EGFR and HER2: Prototypes of Future Cancer Therapy"**
